

Greg's 42 lb. Wahoo

stopped trolling just after noon we had put over twenty tuna on board and had a number of fish that had thrown the hook, a day of fishing every angler dreams of.

After pulling in the lines we ventured into the town of Bannaca on Guanaja Island where we stopped in at Graham's Place, a private island

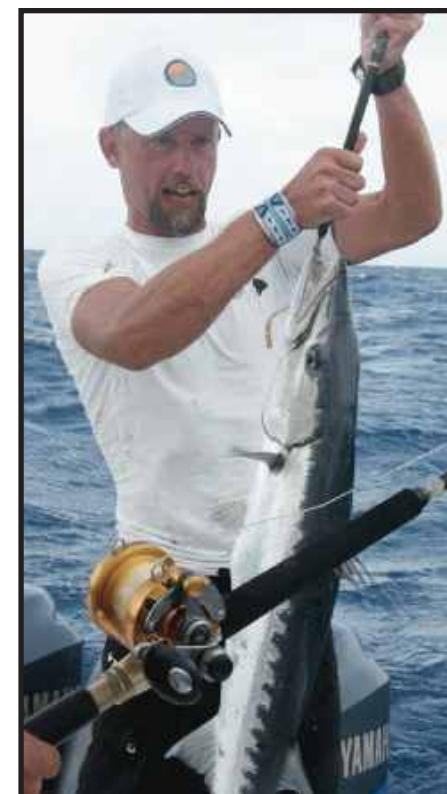

Greg and Darien with a pair of 12 lb. barracudas

only minutes away from the main island of Guanaja. There Graham himself welcomed us, and his fish pen full of nearly a dozen sea turtles, a school of trophy sized Bone Fish, Rays, Barracuda, and a 150lb Grouper! We enjoyed the company at Graham's Place for about an hour before we decided to continue our day of fishing. With the help of Cassidy we were able to arrange the use of a smaller boat, which was capable of boarding the flats of

Guanaja where we were able to throw the fly rods.

We pulled up into a flat just minutes away from Graham's Place where we immediately spotted not one, but two large Permit! Greg stepped off the boat in hot pursuit of the two trophy flats fish. A perfect cast, behind the fish without a splash, the two Permit were now in pursuit of Greg's "Crazy Charlie" fly. They both followed the fly nearly to Greg's feet

Cont'd. on next pg.

Greg with a big Barracuda caught on a live bait tuna. It managed to get away with four of our previously hooked tunas before we were able to get one in alive and send him back with a hook in him. With 4 tuna tails in his stomach, it weighed in at about 22 lbs.

before pulling away to disappear back into the flat. Although there was no hookup, it was still an opportunity every fly fisherman can appreciate. Although the Permit had eluded

Greg with a 15 lb. mahi-mahi

us, Greg, Cassidy and myself all hooked into Bone Fish on the same flat, all three breaking off on shallow coral but still worth the experience none the less.

Unfortunately all good days must come to an end, including this one. We returned back to the Gypsea Sol and headed back to Roatan, not before taking in some of the amazing scenery the Caribbean has to offer. We arrived back to Infinity Bay on Roatan where we got to unload our day's catch and enjoy a cold drink at the bar while bragging to the neighboring guests about what an outstanding day we had.

On behalf of Pirates Bend Caribbean Adventures, Greg and myself would like to thank Harry Canterbury for coming down to visit with us and giving us the opportunity to get him out on an outstanding day of fishing!

We look forward to our next adventure with Adventure Sports Outdoors!

Infinity Bay Spa & Resort

Visit Roatan, Honduras for a wonderful affordable vacation. Harry & Cathy Canterbury along with their video producer of ASO-TV took a

trip this early Sept. 2008. Airlines tickets ran \$279.00 each on TACA airlines a Central American airline that flies out of Chicago O'Hare and other cities in the US. See TACA.com for more info. This airline served food and complementary adult beverages to the passengers. All the attendants were gracious and spoke very good English. Just so everyone knows a trip to Roatan, Honduras is reasonably priced.

Infinity Bay features beautiful condominiums with full kitchens, granite countertops, stainless steel appli-

ances, ceramic tile floors, cable TV, phones, central a/c, patios or balconies. The condos truly have all the comforts of home.

Additional units are under construction and are available to purchase at a great price. Ask about rental vacation packages and see their website for more information. InfinityBay.com

When the ASO crew was there the restaurant was outside on the beach next to the swimup Tiki bar. This is a great bar with bar-stools on 3 sides and concrete stools in the water for patrons to sit in the pool and enjoy a beverage.

Monkey La Las were the favorite for Cathy & HB. HB thanked a bartender for her excellent service!
